

## **NextCure and Simcere's SIM0505 (CDH6 ADC) Abstract Accepted for ASCO 2026**

March 31, 2026 at 4:05 PM EDT

**The American Society for Clinical Oncology to be held in Chicago May 29 – June 2, 2026**

BELTSVILLE, Md., March 31, 2026 (GLOBE NEWSWIRE) -- [NextCure, Inc.](#) (Nasdaq: NXTC), a clinical-stage biopharmaceutical company committed to discovering and developing novel, first-in-class, and best-in-class therapies to treat cancer and Simcere Zaiming Pharmaceutical Co., Ltd., (Simcere) an oncology-focused biopharmaceutical company, today announced that an abstract for SIM0505 has been accepted for the American Society for Clinical Oncology (ASCO 2026) meeting being held May 29 – June 2 in Chicago, Illinois. SIM0505 is an investigational antibody drug conjugate (ADC) targeting Cadherin-6 (CDH6) with a proprietary topoisomerase 1 inhibitor (TOPOi) payload.

The ongoing open-label, Phase 1 study ([NCT06792552](#)) is evaluating SIM0505 in advanced solid tumors, including ovarian cancer, with an emphasis on platinum resistant ovarian cancer.

### **About SIM0505**

SIM0505 is a novel antibody drug conjugate (ADC) directed to cadherin-6 (CDH6 ADC), featuring a proprietary topoisomerase 1 inhibitor (TOPOi) payload. The ADC is designed for broad anti-tumor activity, fast systemic clearance and an improved potential therapeutic window. SIM0505 is being evaluated in an open-label, Phase 1 study ([NCT06792552](#)) for the potential treatment of advanced solid tumors, including ovarian cancer, with an emphasis on platinum resistant ovarian cancer. NextCure holds exclusive global rights for SIM0505, excluding China, Hong Kong, Macau, and Taiwan which are retained by Simcere Zaiming Pharmaceutical Co., Ltd.

### **About NextCure, Inc.**

NextCure is a clinical-stage biopharmaceutical company focused on advancing innovative medicines to treat cancer patients through the use of targeted therapies including antibody-drug conjugates. We focus on advancing therapies that leverage our core strengths in understanding biological pathways and biomarkers, the interactions of cells within and beyond the tumor microenvironment, and the role each interaction plays in a biologic response.

### **About Simcere Zaiming**

Simcere Zaiming is an oncology-focused biopharmaceutical company and a subsidiary of Simcere Pharmaceutical Group Limited (HKEX: 2096, "Simcere"). Founded in 2023, Simcere Zaiming is dedicated to developing groundbreaking therapies to meet the unmet clinical needs of cancer patients globally. With a robust and innovative R&D pipeline featuring distinct clinical assets, Simcere Zaiming has successfully launched several innovative products in China, including Enzeshu<sup>®</sup>, COSELA<sup>®</sup>, Enweida<sup>®</sup>, Endostar<sup>®</sup>, and Enlituo<sup>®</sup>. The Company is determined to deliver potentially transformative treatment options to cancer patients worldwide through its internal R&D, manufacturing, and commercialization capabilities, complemented by strategic collaborations with leading partners.

### **Forward-Looking Statements**

Some of the statements contained in this press release are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including with respect to funding for our operations, objectives and expectations for our business, operations and financial performance and condition, including the progress and results of clinical trials, development plans and upcoming milestones regarding our therapies. Any statements contained herein that are not statements of historical fact may be deemed to be forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as "aim", "anticipate", "assume", "believe", "continue", "could", "should", "due", "estimate", "expect", "intend", "hope", "may", "objective", "plan", "predict", "potential", "positioned", "seek", "target", "towards", "forward", "later", "will", "would", and other similar expressions that are predictions of or indicate future events and future trends, or the negative of these terms or similar language.

Forward-looking statements involve substantial risks and uncertainties that could cause actual results to differ materially from those projected in any forward-looking statement. Such risks and uncertainties include, among others: market and other conditions; positive results in preclinical studies may not be predictive of the results of clinical trials; NextCure's limited operating history and not having any products approved for commercial sale; NextCure's history of significant losses; NextCure's need and ability to obtain additional financing on acceptable terms or at all; risks related to clinical development, marketing approval and commercialization; NextCure's reliance upon collaborators and international vendors for advancing clinical programs; NextCure's ability to maintain listing of its common stock on the Nasdaq Global Select Market; and NextCure's dependence on key personnel. More detailed information on these and additional factors that could affect NextCure's actual results are described under the heading "Risk Factors" in NextCure's most recent Annual Report on Form 10-K and in NextCure's other filings with the Securities and Exchange Commission. You should not place undue reliance on any forward-looking statements. Forward-looking statements speak only as of the date of this press release, and NextCure assumes no obligation to update any forward-looking statements, even if expectations change.
